- 25X1 1. Between Ljubljana and Jezica Medvode, in a completely isolated area, there is a factory producing projectiles for V-1 and V-2. The factory is well hidden by trees and cannot be approached because of the extremely strict vigilance of the guards.
- 25X1 2. About 80 workers and six technicians of Slovene origin are employed at the factory. The entire personnel is restricted to the factory area.
- 25X1 3. It is believed that production is very low, with about four projectiles manufactured each month. During working hours the personnel wear wooden-soled boots, either as a precaution against electric current or because of the dampness, since the factory is built underground. Only two electric transformers, about 30 meters high, are visible.
